

Value Proposition / Körber Pharma Inspection

As the world's leading inspection expert,
we offer an unrivaled level of quality for customized inspection solutions.
Whether as quality control at the end of the manufacturing process
or as an application during filling:

With over 125 years of experience and a deep understanding
of the special requirements in the pharmaceutical industry,
we develop customized inspection machines and technologies
that are trusted by customers around the world.

What makes it a Körber Inspection Solution?

More than
125
years
experience

Flexibility

within any individual inspection machines as well as across the entire portfolio

Modularity

choose your customized machine from standard platforms and specialized modules

Uniform software

all our machines use the same software, whether laboratory unit or high-performance machine

Uniform HMI

on all machine platforms and modules facilitates operation

Configuration instead of programming

allows machine operators fast and easy changes to the machine by selecting parameters

Global presence

We have you covered, always and everywhere. With local offices around the world we support you wherever your business is located.
