

## PESTER PAC AUTOMATION – INSPIRED BY TECHNOLOGY

We're your partner for pharma and consumer automation excellence. Experience world's leading future-safe, intelligent and sustainable packaging solutions. Be inspired by our cutting-edge end-of-line packaging machinery portfolio - from film wrapping and case packing through to palletizing.

We have been setting trends in end-of-line pharmaceutical and consumer packaging for more than 50 years. pester pac automation stands for innovation and the development of visionary machine and automation concepts, from film wrapping and case packing through to palletizing and depalletizing.

Around the world, more than 8,000 Pester systems and lines prove their efficiency to our multinational customers every day. They appreciate our high-quality machine and service portfolio. Pester systems convince with the highest quality, top performance and economic life cycle costs. With its developments, Pester consistently pursues the goals of reducing energy consumption and emissions using holistic sustainability management to focus on environmentally friendly and resource-saving developments and processes, as well as climate targets. Everything from a single source - digital solutions, individual services, customer-oriented developments and tailor-made turn-key solutions demonstrate the advantage of our technology.

What sets us apart? A unique quality of the relationships with our customers and partners. 1.000 employees worldwide, eight subsidiaries and 35 agencies in 80 countries are involved in a dynamic network. This with only one goal: the optimal packaging process for our customers.
